Huttig Building Products to Distribute AZEK® Product Line

St. Louis, MO – Huttig Building Products announced today that it has been selected by newly formed CPG Building Products to distribute the complete line of AZEK® products, including Trim, Deck, Porch, Rail, Mouldings and Pavers, in the northeast. Long-known for being the #1 brand of PVC trim, AZEK began producing decking in 2007 and has rapidly risen to being ranked as the highest quality composite/PVC decking brand, according to the *Builder* magazine 2013 Brand Use Study.

“AZEK is clearly recognized as one of the best brands in our industry today,” Greg Gurley, Huttig Vice President of Product Management, said. “We’re proud to have been selected to partner with AZEK in the distribution of their products. AZEK is trusted by pros everywhere, and is a brand that will certainly help our dealers drive sales.”

In addition to the AZEK product line, Huttig’s location in Wilkes-Barre, PA will also be adding the full line of TimberTech® decking, railing, lighting and accessories. With the addition of AZEK and TimberTech in Wilkes Barre, all Huttig locations in the northeast have been authorized to distribute both product lines, giving these Huttig locations the most complete line of PVC Trim and Composite / PVC decking in the industry.

“We’ve partnered with TimberTech, a brand known for innovation and quality, across many of our locations for more than 15 years. Partnering with the most preferred brands in our industry is a key component of our strategy,” Jon Vrabely, Huttig President & CEO, stated. “The addition of AZEK expands our product offering with another top brand focused on innovative products that deliver strong value throughout the entire channel.”

Huttig will distribute AZEK and TimberTech from its branches in Newington, CT; Augusta, ME; Hooksett, NH; Selkirk, NY; Lancaster, PA; and Wilkes-Barre, PA.

###

Huttig Building Products, founded in 1885, is a leading domestic distributor of millwork, building products and wood products used principally in new residential construction and home improvement, remodeling and repair work. Huttig has relationships with leading manufacturers and distributes its products through 27 wholesale distribution centers serving 41 states. The Company’s wholesale distribution centers sell principally to building materials dealers, national buying groups, home centers and industrial users, including makers of manufactured homes.
