Huttig Building Products to Distribute AZEK® Product Line from 13 Branches Across Eastern United States

St. Louis, MO – Huttig Building Products announced today that it has executed a Distribution Agreement with CPG Building Products that expands their relationship and authorizes Huttig to distribute the complete line of AZEK® products, including Trim, Deck, Porch, Rail, Mouldings and Pavers from 13 Huttig branch locations throughout the eastern United States servicing 21 states.

Long-known for its #1 brand of PVC trim, AZEK began producing decking in 2007 and has rapidly risen to be the highest quality composite/PVC decking brand, according to the *Builder* magazine 2013 Brand Use Study.

In addition, the Huttig locations selected to distribute AZEK products will continue to distribute the full line of TimberTech® decking, railing, lighting and accessories to lumber, building materials and specialty dealers throughout their service areas.

“Partnering with the most preferred brands in the building products industry is an integral part of our product strategy,” Jon Vrabely, Huttig President & CEO said. “The opportunity created by CPG in combining AZEK and TimberTech is exponential and we couldn’t be happier to have been selected to distribute both brands across such a wide geography.”

“Huttig has always been known for distributing some of the best brands in the industry and they have had a very successful relationship with TimberTech for more than 15 years,” Jason Grommon, CPG Building Products President, stated. “We are excited to have a strong distribution partner that understands the value in branded products to help us deliver the growth strategies for both TimberTech and AZEK branded products going forward.”

Huttig will distribute AZEK and TimberTech through its branches in Augusta, ME; Selkirk, NY; Hookset, NH; Newington, CT; Lancaster, PA; Wilkes-Barre, PA; Cape Girardeau, MO; Rocky Mount, NC; Greenville, SC; Jacksonville, FL; Davenport, FL; Fort Myers, FL; and Riviera Beach, FL.

###

Huttig Building Products, founded in 1885, is a leading domestic distributor of millwork, building products and wood products used principally in new residential construction and home improvement, remodeling and repair work. Huttig has relationships with leading manufacturers and distributes its products through 27 wholesale distribution centers serving 41 states. The Company’s wholesale distribution centers sell principally to building materials dealers, national buying groups, home centers and industrial users, including makers of manufactured homes.
