Huttig[®] to Distribute Finished Elegance[®] by Woodgrain[®] Millwork in the Northeast

St. Louis, Mo – Huttig[®], one of the nation's largest wholesale distributors of millwork and specialty building projects is pleased to announce it will begin distributing Woodgrain Millwork's Finished Elegance[®] line in the Northeast. Finished Elegance offers an interior moulding product coated (not painted) on all four sides, resulting in a silky-smooth furniture finish that installs easier and lasts longer by resisting wear and tear.

"We are thrilled to introduce this product to dealers in the Northeast region," Bob Shaw, Sales Manager, said. "With Huttig's reach and Finished Elegance's superior product, we are confident the Northeast market will benefit from this partnership with a product that offers a high-quality look and an easier and quicker finished installation than traditional wood."

"At Huttig, we know that time is money for residential contractors," Greg Gurley, Vice President added. "That's why we are proud to distribute a product that among other benefits, saves four days on average and more than \$1,600 per home in overhead, labor and material costs compared to standard unfinished product. It's time and money well spent, and proves the partnership of Finished Elegance and Huttig just makes sense."

"Woodgrain is excited to partner with Huttig for Northeast distribution of Finished Elegance." Robb Hitch, Divisional Sales Manager, Woodgrain Millwork said. "Huttig understands the value Finished Elegance brings to customers and will do a great job introducing it into their market."

The primary market territory for Huttig's distribution in the Northeast will be Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut and New York.

About Huttig

Huttig Building Products, founded in 1885, is a leading domestic distributor of millwork, building products and wood products used principally in new residential construction and home improvement, remodeling and repair work. Huttig has relationships with leading manufacturers and distributes its products through 27 wholesale distribution centers serving 41 states. The Company's wholesale distribution centers sell principally to building materials dealers, national buying groups, home centers and industrial users, including makers of manufactured homes. Huttig is a publicly held company traded on the NASDAQ Capital Market under the symbol "HBP". For more information on Huttig, visit www.huttig.com.
